THE CIRCUS.-We understand that a movement The intolerable nuisance caused by the speed at which Drays are driven through the streets, as well as the risk to life, and the damage done the roads, compels the Min-ister of the Interior to amend the regulations regarding is under way to tender a benefit to Mr. Luproil, the manager of the Circus, the time of which will licensed carriages and drays, issued August 12, 1878.

REGULATION.—No horse attached to any Licensed Wagon, Cart or Dray for the transportation of freight, shall, within the circuit of one mile from the Honolulu Post Office, be driven faster than a walk.

Joss Houses.-Like all growing cities, Honolulu can now accommodate religious worshippers of almost any creed. We are informed that there are two Chinese temples here, idols, altars, incense, ON MONDAY, November 3rd, 1879, at 12 o'clock noon, will be offered for sale at public auction at the front entrance of Aliiolani Hale a small piece of land on the Esplanade adjoining the premises of Hon. Bruns. jr. has been very low, but we are happy to believe that he will soon be able to resume his business and attend to all

ROBBED .- It is reported from Lahaina that a store at that place was depleted during the past week to the extent of some \$500 in coin. The story goes that the person in charge (and to whom the money belonged) locked the safe in which it was deposited and put the key in a table drawer of the store. In the morning a window was found open (the doors being all locked) the safe opened and the money gone. We give the story as we got it, and leave the detectives to work up the case. Suppressio Veri - Suppressing the truth is oftimes as bad as asserting the false. The Gazette of

one tin of opium, was sentenced to one month at hard labor in the chain gang, and that two Chinamen, were each sent up for one year for the same offense. A different, and at the same time a truthful statement would have been, that one of the Chinamen was convicted of smuggling forty tins of opium, and the other of smuggling some forty ounces of the drug in broom handles. KAPIOLANI PARK ASSOCIATION .- We hear that a meeting will shortly be called of the members of the above Association, for the purpose of electing a President in place of the late James Makee, and

transacting other necessary business. The principal attraction of the Park at present, and until the trees are grown, is the race-track, and we beg to suggest to the management that its present heavy condition would be much improved by a good coating of the coral cement which abounds in the neighbor-THE MONGOLIAN INUNDATION .- Since the first of anuary last, two thousand seven hundred and hirty MALE Chinese have arrived at Honolulu alone, exclusive of those that have landed at Hilo and Kahului, of whom we have no record. As mates, or

"help-meets" for this army, there arrived here during the same period, fifty Chinese females. By the last census of these Islands the proportion of males to females was three to one. Any thoughtful person will easily draw the inevitable conclusion as to what sort of a condition as a nation that is to which we are rapidly approaching. An Interlude .- At the performance by the Band this afternoon we learn that the boys are to give a singing interlude, which will no doubt enhance the interest of the Concert, as they all bave good well-trained voices. We have been favored with

"A jolly life the bachelors lead, No wife to dress or child to feed; Can stay at home whene'er he please-A jolly life is his." While venturing to doubt the correctness of the position assumed in this verse, we can readily imagine it to have been the utterance of some poor Benedict who was compelled to dress his wife and feed a regiment of hungry children, and who sighed for a quiet, uninterrupted evening at home.

tations. Oh, no ! A CHAMPION SWIMMER AND SCULLER .- Through a correspondent we learn that Mr. Serjeant Daly of out again for the wharf with his peculiar band-San Francisco, who is the Champion of the Pacific Coast in his line proposes shortly to visit Honolulu and give us a taste of his qualities. He is having a boat built 32 feet long. 10 inches wide, 6 inches deep amidships, 3 inches forward, and 2 inches aft. The builder is the celebrated Mr. Reed of San Francisco. If Mr. Daly comes here with his boat, as he expects to do by the next steamer, he will offer to pull ber against any one man on the Islands (we have no suitable boat, by the way) or swim any one man three miles for \$1000 a side, within ten days after arriving here. Here is a chance for the Hawaiians to back their man. The boat of Mr. Daly is to weigh 23 pounds!

WHY SO APATHETIC ?- That was the question we ing. The mortality so far has been principally asked ourselves last Wednesday evening. Why confined to the foreign portion of the community, are the people of Honolulu so apathetic when ap- | and the young and apparently strong are those atpealed to on behalf of an acknowledged worthy in- tacked. The premonitory symptoms are, pains in stitution like the Queen's Hospital, especially when | the head and back with occasional chills, and bad they are promised a modicum of good amusement for their money. Last week Mr. Luproil announced that on Wednesday evening of this week, the performances at the Circus would be for the benefit of that noble institution, the Queen's Hospital.

TRIM YOUR TREES .- The season of the year is approaching when we may expect rainy and stormy weather, and therefore we renew our annual advice to householders to trim their trees and

shrabbery. PRYSICIANS IN ENGLAND .- An English medical journal complains that the social position of doctors in England is far from satisfactory. In the army and navy it says it is simply shameful, and in civil life he is considered by the aristocracy as only a sort

of upper tradesman. RESPITED .- The native woman Kelilhanalwi Davis. who was convicted at the July term of the Supreme Court of the murder of Akela, a Chinaman, at Wailuku, and who was sentenced in be banged on the last Friday of this month, has, by a resolution of the Privy Council, been respited until further

action shall be taken by that body. POSTPONED .- The case of Capt. Brown of the HC H. Meyer, who was last week convicted in the Police Court of smuggling one tin of opium at the house of Chas. Cash on Maunakea street, has, on the motion of the defendant been continued until the January term of the Supreme Court. Capt. Brown has given bail for his appearance to the

CRAZY. - The native Kancomanawanui, who we reported last week as having cut his throat and been taken to the hospital for treatment, died on Monday night. Every effort was made to save his life by Drs. McKibbin and Hutchinson, but as fast as the wound was sewed up the frenzied man persisted in working his head so as to tear out the stitches. He was quite evidently insane.

Music.-The Band will play this afternoon at Emma Square, commencing at 4.30 P. M. The following is the programme:

The next moonlight concerts will take place on Monday, Oct. 27th and on Wednesday Oct. 29th.

at the usual time and place. "WAKE, SNAKES!"-Among many other institutions of their native land which our delectable Chinese friends are striving to make us acquainted with, are snakes. In discharging the A. C. Dick-Good News .- The editor of the Gazette au- erman from Hongkong, a live snake, some 22 inches in length, made his appearance from among some firewood last Saturday. A supply of those creatures in our woods and valles would nicely supplement the Mengolian element. But some body standing by didn't a bit resemble Mother Eve in stopping to parley with the Serpent, but smote it to death at once.

KING STREET EXTENSION .- Sometime ago several subscription papers asking for 8! contributions for the above purpose were left at different offices in the city, where those so disposed might leave their mites. We are informed by the acting treasurer, Mr. John H. Paty, that the sum of \$129,-50 in all was paid in to him on this account, and that after the project of extension of the above named street was abandoned by the Minister of the Interior the said sum was paid to that official to be used in improving the approach to the Park, whenever that may be undertaken.

WASTING WATER .- Referring to a notice which appears elsewhere in to-day's paper by the Superintendent of Water Works in regard to the subject which heads this item, we remark, that the government is compelled to issue this notice on account of the frequent and excessive waste of water in the night time, which has been observed all over the city. The actual amount of water drawn from the reservoirs during the month has averaged over two millions of gallons per diem, while the actual con-sumption in Honolulu, under the rules, is but one million of gallons per diem. The present waste of water at night is so great that in the case of a fire, there would not be a sufficient supply in the reservoirs for the use of the fire engines.

PERSONAL .- We had a call at our sanctum one day this week from Mr. Geo. Macfarlanc, of the firm of Geo. B. Macfarlane & Co of Glasgow, Scotland, this week says that a certain man for smuggling a well known shipping and commercial house of that city. They were the owners of the Eskbank, and other vessels in the same line. Mr. Macfarlane has spent some weeks in traveling about our islands and looking into our resources, and expresses himself much pleased with our agricultural prospects for the future. He returns East by the incoming steamer from the South. We understand that Mr. Watson, of the Glasgow firm of Mirrlees, Tait & Watson, machinists, who paid us a visit some two years ago, is likely to call this way again during the coming winter months. We like to see these repre-sentatives of foreign capital coming here and getting acquainted with us and our surroundings, for we are satisfied that they cannot fail, on due examination,

to see the advantages to accrue in investing here. A PRINTING OFFICE FOR SALE .- At length this government, after many years of loss, both financially and morally, has concluded to retire from the printing business, and will to-day at 12 o'clock noon sell to the highest bidder in front of Aliiolani House, the entire " plant " of the Hawaiian Gazette, the buyer to take possession Jan. 1, 1880. Nothing can be more unwise than for governments, in this age, to dabble in printer's ink; and although we are not so ungenerous as to accuse the present Ministry of any connection with the-the-chap over the way-yet the fact unfortunately remains that it was government material with which government and people were being damag ed, during these years. As we have taken occasio to remark heretofore, the business of printing and publishing newspapers is the poorest paid in these Islands, and the best luck we can wish for any one is that they won't have the Gazette plant knocked down to them to-day.

THE SWIM .- The race between a Scotchman and a native Hawaiian for \$100 a side, came off as previously anounced on Saturday last at about 5 p. m., in the presence of a large concourse of spectators, who were however mostly natives. The distance from the end of the Esplanade to minutes, his opponent coming in two minutes behind him. From the start it was quite evident that the native was the best man in the Hawailan's maintained it throughout. At the stakeboat, being well shead, he 'trod water' for a while, and remarked to those in the boat that he wasn't the least bit tired or out of breath, and then lannebed over-hand stroke. The Scotchman was evidently a very fair swimmer; but we have yet to see any nationality that can successfully compete with the natives of the Pacific Islands in either swimming or diving. The easy won victory of their countryman was of course the occasion for great excitement and enthusiasm among the assembled Hawaiians, male and female,

TYPHOID FEVER -This disease, which in former years was almost unknown in this city or on the group, is now quite prevalent here.
